# DEEPIKA GODAVARTHI

## CAREER OBJECTIVE

Seeking an engaging role within a reputable organization, where I can apply my experience and skills to contribute effectively. Committed to advancing the company's growth and further enhancing my own capabilities in the process.

## WORK EXPERIENCE

### NOKIA | Student Intern (September 2022 - June 2023)

- Experience in creating and maintaining test cases using Robot Framework, Selenium, SSH.
- Collaborated with senior team members to maintain and update test cases and frameworks for ongoing testing efforts.
- Participated in code reviews, team meetings and contributed to documentation practices and process improvement initiatives.
- Demonstrated to write testcases for the entire team user stories and had actively shared my knowledge sessions in the team.
- Worked with Git commits, Jira and CI pipelines.

## EDUCATION

### Vellore Institute Of Technology (2018 - 2023)

Integrated M. Tech Software Engineering - 8.73 CGPA

## PROJECTS

### Skin Cancer Detection Using Deep Learning (2022)

Developed a web application using streamlit package to predict the skin cancer by uploading an image with an aim to help doctors and patients with an accuracy of 89%.

### E Learning System (2021)

Developed a website to enhance the quality of learning to meet the learning style or needs of students. Built using HTML, CSS, JavaScript, PHP and MySQL.

### Flight Management System (2020)

Developed a project entirely using java programming which helps in managing the information such as flight booking, passenger reservation, booking enquiry etc.
